### **QUESTIONS AND RESPONSES:**

#### **QUESTION NO. 1:**

According to sheet 31 of the plans provided for bidding, the contractor is required to “submit for review and approval by the city traffic engineer a sign and barricade plan...traffic control devices”. However, on sheets 8-11, there is already a traffic control plan provided. Are we required to follow the provided traffic control plan, or follow sheet 31 and create our own traffic control plan for the area? Which statement governs?

#### **RESPONSE:**

Sheet 31 is the Mill and Overlay sheet. You need to phase this final stage and let us know how you are going to handle the traffic during this process.

Sheets 8-11 deal with the street widening and dictates how you handle that part of the construction.

You need to follow the note on sheet 31 for the mill and overlay. And the control plan on sheet 8-11 for the construction of the street.

#### **QUESTION NO. 2:**

On sheet 8, “portable changeable message boards” are required for construction purposes of the project, however there is no pay item in the bid tab for these. May we obtain a pay item for the portable changeable message boards?
